

New Prospects for IT Business

Meet the Large Scale Pilot projects at CeBIT

CeBIT is the world's largest and most international computer expo. The digital industry's biggest and best known event is held every year in Hanover, Germany, and is considered a barometer of the state of the art in the information technology and telecommunications industries. CeBIT 2015 will take place from 16 to 20 March, and will centre around the rapidly growing influence of IT across all areas of business and society.

In the field of new technologies applied in the public sector, the lead is being taken by the [Large Scale Pilots \(LSPs\)](#) launched by the European Commission. By developing technical components for seamless electronic communication, these projects are facilitating the provision of cross-border digital services in a number of policy domains: e-Justice, business start-up, e-ID, e-Procurement, and e-Health.

The LSPs, represented by [e-SENS](#) and [e-CODEX](#), will be on display in the Public Sector Park, which showcases the vital role of IT systems in modernizing government and public administration.

We are pleased to invite you to visit our stand “Digital Public Services Across Borders” and to offer free tickets to CeBIT for IT community!

Take this opportunity to talk to project experts and learn about the building blocks for developing cross-border digital services in various domains. Try out visual and interactive elements to find out about the pilot use cases which test technical solutions in real environments. Visit the stand to learn how to gain business from the LSPs and develop new digital services based on the reusable building blocks. With interesting gimmicks like the touch table, RFID-based information spots, augmented reality wall, sliding monitor, games and quizzes, you will be able to learn more about our developments in a hands-on manner. We look forward to meeting you!

Where to find us

Visit us at CeBIT, Hall 7, stand A40, “Digital Public Services Across Borders”

To arrange a meeting with our experts, please contact: esens.info@lists.esens.eu or e-CODEX email
